WhatsApp Sender System Guide v2.7
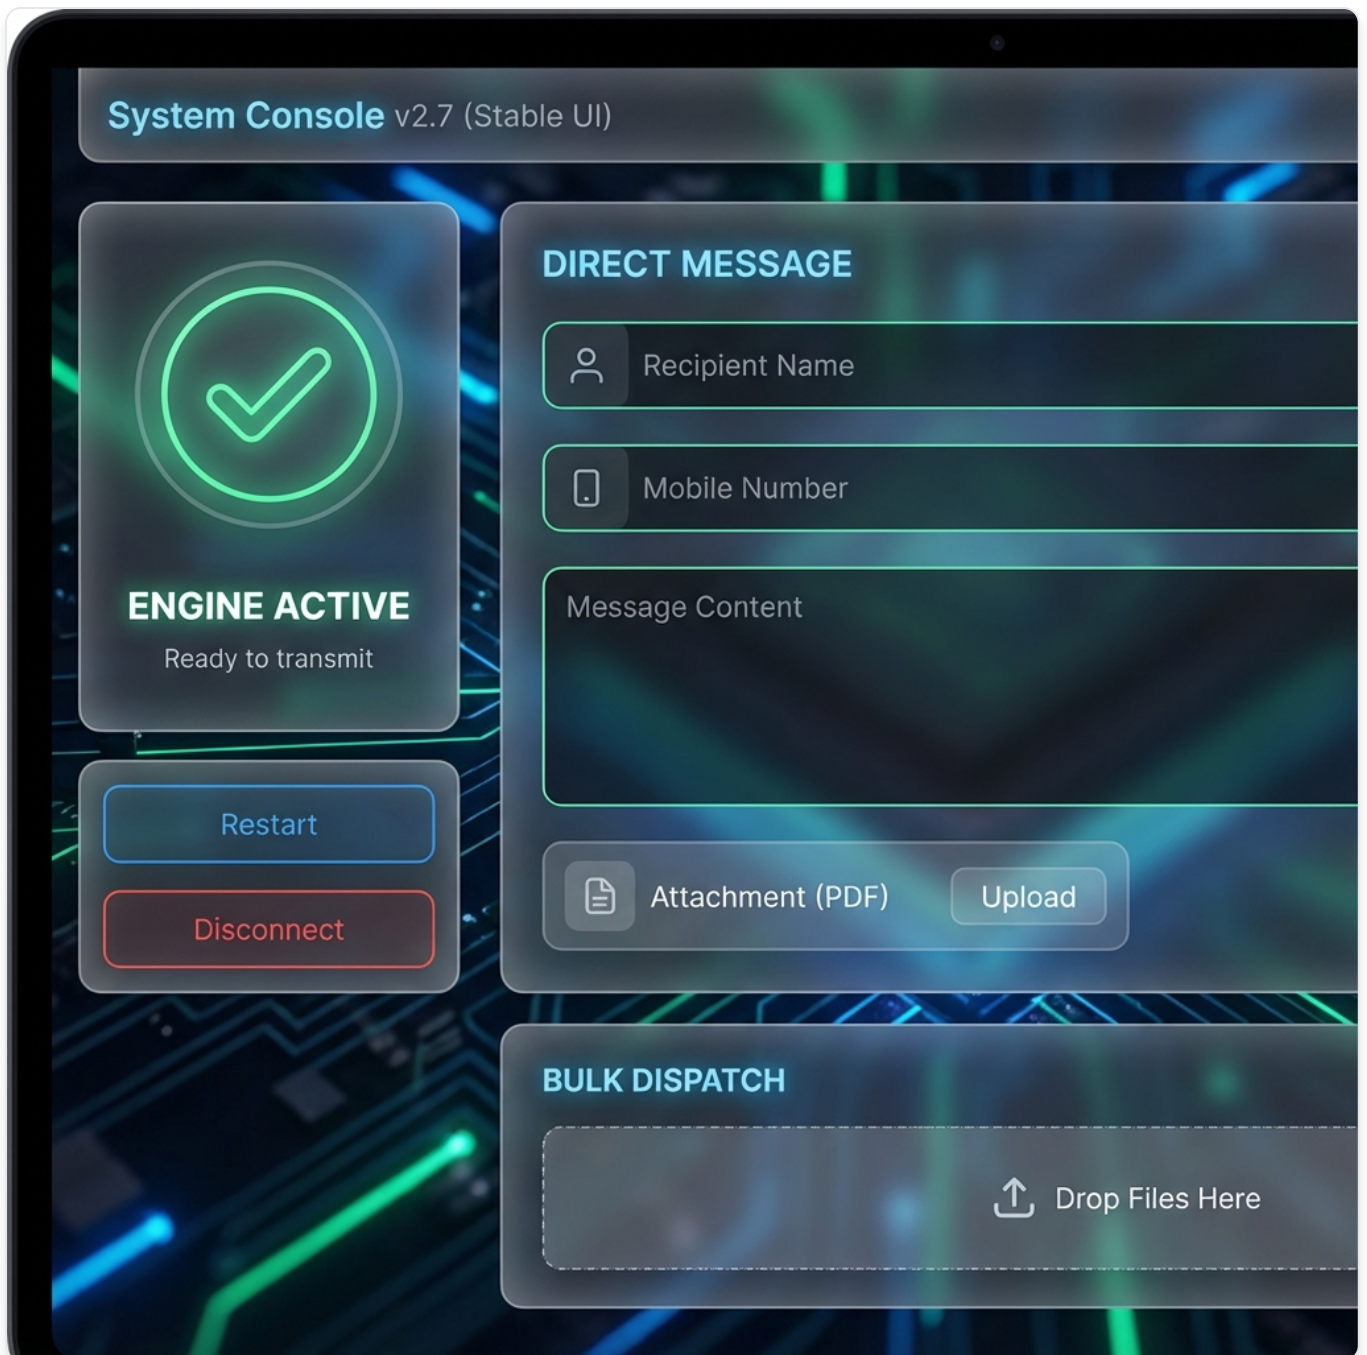

This guide explains how to use your new WhatsApp Automation System to send automated lab reports and messages.

1. Connecting Your Account

> **Note:** You can use any WhatsApp (Personal) or WhatsApp Business account.

1. Open the application.
2. Look at the **Connection** widget on the left.
3. If you see **"Initialize Engine"**, click it and wait for the "Booting..." spinner.
4. Scan the QR Code using **WhatsApp > Linked Devices** on your phone.
5. Status will turn **ENGINE ACTIVE**.

2. Sending a Single Report

Use the "Direct Message" form for quick sends.

- **Recipient Name:** Optional (Auto-extracted from PDF if skipped).
- **Mobile Number:** Required (e.g., `919876543210`).
- **Message:** Default template is pre-filled.
- **Attachment:** Upload your PDF report.

3. Bulk Dispatch

Send hundreds of reports at once.

1. Scroll to **BULK DISPATCH**.
2. Upload multiple PDF files.
3. Review the **Staging Area** table.
4. Click **START BULK DISPATCH** to begin.

4. Reports & History

Track all delivery statuses in the **Reports** tab.

Status	Meaning
Completed	Delivered successfully

Failed	Check error message (e.g., Invalid Number)
